MEMBRANE FIXATION KIT
Part # PFMK20
1 Autoclavable Tecapro™ storage tray w/ screw organizer dial
1 Stainless steel driver handle
1 56 mm cruciform driver blade
1 76 mm cruciform driver blade
20 1.5 mm x 3.0 mm self-drilling titanium alloy membrane fixation screws

TENTING KIT
Part # PFTK12
1 Autoclavable Tecapro™ storage tray w/ screw organizer dial
1 Stainless steel driver handle
1 76 mm cruciform driver blade
1 56 mm cruciform driver blade
4 1.5 mm x 3.0 mm self-drilling titanium alloy tenting screws
3.0 mm polished neck + 4.0 mm threaded portion = 7 mm total length
4 1.5 mm x 4.0 mm self-drilling titanium alloy tenting screws
4.0 mm polished neck + 4.0 mm threaded portion = 8 mm total length
4 1.5 mm x 5.0 mm self-drilling titanium alloy tenting screws
5.0 mm polished neck + 4.0 mm threaded portion = 9 mm total length

BONE FIXATION KIT
Part # PFBK12
1 Autoclavable Tecapro™ storage tray w/ screw organizer dial
1 Stainless steel driver handle
1 76 mm cruciform driver blade
1 56 mm cruciform driver blade
1 1.2 mm diameter latch type pilot drill
2 1.5 mm x 8 mm bone fixation screws
4 1.5 mm x 10 mm bone fixation screws
4 1.5 mm x 12 mm bone fixation screws
2 1.5 mm x 14 mm bone fixation screws

To order or for more information, call 1.888.796.1923 or visit us online at www.osteogenics.com
The Pro-fix™ Precision Fixation System is manufactured to precise tolerances to ensure easy pick-up of screws, stable transfer to the surgical site, and quick engagement in cortical bone. All kit components are labeled, organized, stored, and sterilized together to simplify things for the surgeon and surgical team.

DRIVER HANDLE AND BLADE
The stainless steel driver handle and cruciform driver blade fit together to make up a drive system that ensures easy pick-up of screws and stable transfer to the surgical site.

TECAPRO™ STORAGE TRAY
The autoclavable Tecapro™ storage tray is cleverly designed to store not only fixation instruments, but also a variety of membrane fixation, bone fixation, and tenting screws needed in dental bone grafting.

SCREW ORGANIZER DIAL
Up to 100 fixation screws – including bone fixation, membrane fixation, and tenting – may be stored in a built-in screw organizer dial designed and labeled for easy identification, easy storage, and simple re-ordering.
1. **Membrane Fixation & Tenting Screws**

- **Pro-fix™ Membrane Fixation Screws** are designed as an attractive alternative to using tacks for membrane stabilization. Easy pick-up, solid stability of the screw during transfer to the surgical site, and easy placement make membrane fixation fast and easy.

- **Pro-fix™ Tenting Screws** are designed with a self-drilling tip, polished neck, and broader head to maintain space under resorbable and non-resorbable membranes in horizontal and vertical bone regeneration procedures.

- **Pro-fix™ Bone Fixation Screws** are designed with finer pitched, self-tapping threads that give the screws greater clamping force while using less driver torque. The screws’ threads are equipped with a cutting flute that allows for easier insertion into harder bone. The screws are placed into a 1.2 mm pre-drilled pilot hole.

2. **Screw Organizer Dial**

   Up to 100 fixation screws – including bone fixation, membrane fixation, and tenting – may be stored in a built-in screw organizer dial designed and labeled for easy identification, easy storage, and simple re-ordering.

3. **Driver Handle and Blade**

   The stainless steel driver handle and cruciform driver blade fit together to make up a drive system that ensures easy pick-up of screws and stable transfer to the surgical site.

---

**Pro-fix™ Membrane Fixation Screws**

- **1.5 mm x 3.0 mm size**
  - Designed specifically for securing membranes and mesh.

**Pro-fix™ Tenting Screws**

- **3.5 mm diameter head**
  - Provides broad surface area to help prevent membrane perforation or tearing.

**Pro-fix™ Bone Fixation Screws**

- **Bone Fixation screws**
  - Available in 8 mm, 10 mm, 12 mm, and 14 mm lengths.

---

**Pro-fix™ Cruciform Driver Blade**

- The Pro-Fix™ cruciform driver blade fits securely into the head of the screw and provides excellent screw stability upon placement.

**Tenting Screws**

- **4 mm threaded portion**
  - Anchors into bone for stability.

**Pro-fix™ Bone Fixation Screws**

- **3.5 mm diameter head**
  - Provides broad surface area to help prevent membrane perforation or tearing.

---

**Fine pitched threads**

- Give screw greater clamping force while using less driver torque.

---

**Scrub Organizer Dial**

- Stores up to 100 screws easily.

### Membrane Fixation Kit

**Part # PFMK20**

- 1 Autoclavable Tecapro™ storage tray w/ screw organizer dial
- 1 Stainless steel driver handle
- 1 76 mm cruciform driver blade
- 1 56 mm cruciform driver blade
- 4 1.5 mm x 3.0 mm self-drilling titanium alloy membrane fixation screws

**Self-Drilling Membrane Fixation Screws**

**Individual Components**

- Blades work universally with all Pro-Fix™ screws.
- Stainless steel driver handle
  - PFDH
- 76 mm cruciform driver blade
  - PFDB
- 56 mm cruciform driver blade
  - PFDB56
- Contra angle blade - (24 mm long; 10 mm exposed distal length)
  - PFDBCA
- Autoclavable Tecapro™ storage tray w/ screw organizer dial
  - PFT
- 1.2 mm diameter latch type pilot drill
  - PFPD

### Tenting Kit

**Part # PFTK12**

- 1 Autoclavable Tecapro™ storage tray w/ screw organizer dial
- 1 Stainless steel driver handle
- 1 76 mm cruciform driver blade
- 1 56 mm cruciform driver blade
- 4 1.5 mm x 3.0 mm self-drilling titanium alloy tenting screws
  - 3.0 mm polished neck + 4.0 mm threaded portion = 7 mm total length
- 4 1.5 mm x 4.0 mm self-drilling titanium alloy tenting screws
  - 4.0 mm polished neck + 4.0 mm threaded portion = 8 mm total length
- 4 1.5 mm x 5.0 mm self-drilling titanium alloy tenting screws
  - 5.0 mm polished neck + 4.0 mm threaded portion = 9 mm total length

### Bone Fixation Kit

**Part # PFBK12**

- 1 Autoclavable Tecapro™ storage tray w/ screw organizer dial
- 1 Stainless steel driver handle
- 1 76 mm cruciform driver blade
- 1 56 mm cruciform driver blade
- 1 1.2 mm diameter latch type pilot drill
- 2 1.5 mm x 8 mm bone fixation screws
- 4 1.5 mm x 10 mm bone fixation screws
- 4 1.5 mm x 12 mm bone fixation screws
- 2 1.5 mm x 14 mm bone fixation screws

**Self-Tapping Bone Fixation Screws**
